## COMBO EMAIL & MAIL NOTIFICATIONS

*Reduce Your Costs & Increase Opt-in Response*

Our exclusive combo program can help substantially reduce your compliance notification cost as well as create another easy option for your accountholders to opt-in for ATM and debit card transaction coverage. Depending on the number of email addresses you have on record, your institution could save an average of 20 – 25% per campaign.

### How it works:

**Step One:** We'll determine if an online/landing page needs to be created to collect Reg E opt-in consents. If so, we'll design one using compliance-approved copy.

**Step Two:** An electronic notification will be sent out to all accounts with a valid email address. We will monitor for bounce-backs or undeliverable messages, and then add these to the direct mail file to ensure the required attempt at delivery has been made for each account.

**Step Three:** With the mailing list adjustments generated in step two, physical letter notifications will be mailed out to the rest of your accountholders.
